

Science (CLIL)

5^o Primary school

A trip from cell to the body

Create a comic explaining the body systems

The body: cell, body systems, healthy habits

Plants

Create a field diary about the plants of the local area

Plants: characteristics, classification, reproduction, nutrition

Why do we live here?

Create a poster describing and comparing different biomes

Ecosystems: elements, food chain, world biomes

Everything is matter

Create a video to show all their learning about matter

Matter: states, properties, change of state

Is our life sustainable?

Create a video to promote sustainability in the use of energy.

Energy: types, sources, Sustainable Development Goals

Lights on!

Design a model of a house or city and create an electrical circuit to light it up.

Electricity: sources, electrical circuits

The inventors

Design, build and describe an invention which can change the world.

Inventions: simple machines, history of inventions
